PROFESSIONAL EXPERIENCE

Business Analyst, Genpact
08/2025 – Present

- Analyzed financial and operational datasets to identify trends, anomalies, and performance insights supporting business decision-making.
- Developed and maintained **financial reports, dashboards, and data summaries** using Excel and OneStream to provide actionable insights to stakeholders.
- Performed **data validation and reconciliation** across multiple financial datasets to ensure accuracy and consistency in reporting outputs.
- Used **SQL and Excel** to extract, clean, and analyze data, supporting MIS reporting and management reviews.
- Collaborated with finance and operations teams to **identify process improvement opportunities and streamline reporting workflows**.
- Utilized **OneStream XF** to review financial data, assist in reporting processes, and support financial planning and consolidation activities.

Business & Digital Analytics Associate, Nat Habit
01/2022 – 04/2022

- Analyzed website and campaign data for 15% improvement in conversion tracking accuracy.
- Monitored user behavior using Google Analytics to identify funnel drop-offs and engagement trends.
- Created performance dashboards to support weekly reporting and business decision-making.
- Assisted in optimizing customer acquisition strategies by analyzing traffic, CTR, and retention metrics.
